

SGS CERTIFICATION

**SAFETY FOR GUESTS
AND EMPLOYEES HAS
TOP PRIORITY AT
LEONARDO HOTELS.**

AUDITED & CERTIFIED HYGIENE CONCEPT

With comprehensive and dynamic measures for cleanliness and infection protection, we have developed a broad-based hygiene concept that covers all areas of the hotel and which ensures the best possible security in all our hotels. These measures were officially audited with the "Clean&Safe Hotel" certification via SGS, the world's leading testing and certification company, which is recognized as a global benchmark for quality and integrity.

We have taken the path of official certification so that you can feel even safer in our hotels and be convinced that all our hygiene measures are far above the current standard requirements – for the protection of our guests, customers and employees.

All measures taken are regularly checked and adapted to the current situation and regulations.
